Towards a framework for coherence of the European economic policy

The main aim of the paper is to assess the contribution of the program 2019-2024 of the Von der Leyen Commission towards a new European economic policy, including the Green Deal Plan and the Review of the economic governance. The paper analyzes the foreseen guidelines and commitments while focusing on the methodology, in a quest for better coherence of policies and for more effectiveness of tools.

¹ Career diplomat, with the rank of Ambassador since 2010.
